NIKY PENINI

Boat excursions along the Po Delta

Let me introduce myself, I am Niki Penini, professional fisherman, born and raised on a boat between the Po river and Scardovari inlay.

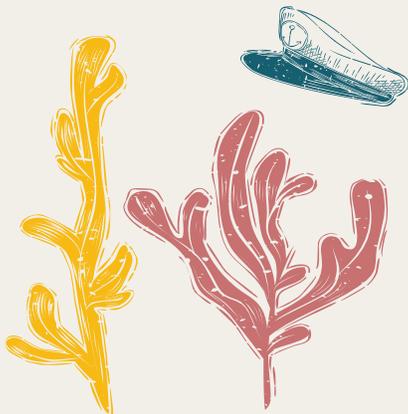

Here, my family started breeding mussels, an activity that I continue still today with passion and dedication.

I love and respect Nature.

I would like to offer my guests, travellers and explorers of the Po Delta everything that Nature is teaching me every day and what it means to work with this delicate world closely- tied to ancient maritime traditions.

I tell the story of my territory, of its breath made of many sacrifices that gives me a sense of priceless freedom.

The navigation takes place along the river: the Lagoon, the Bonello Bacucco, passing through the reeds and finally arriving at a wild beach, Spiaggia dei Gabbiani (The Beach of the Seagulls).

A stop of approximately half an hour for an aperitif (wine, snacks and soft drinks) and then return to the lighthouse of Gorino.

Activities in the "Ca 'Pasta" Valley

And here is “the Valley” for you, a special environment that opens its doors for the first time to eco tourism. Thanks to private and forward looking management of the fish farmers, environments suitable for the proliferation of birdlife are created.

The increase in the number of species in the Veneto area, such as the Pratincole, the valley entrepreneurial vision and the knowledge of the Sagittaria Cultural Naturalistic Association of Rovigo, led to the idea of opening these private spaces also to "external" persons, who love to be in close contact with this wonderful Growing Nature.
